STUDIO SELECT **KOMBI**[™]

SCOTTY CAMERON[®] PUTTERS

ADVANCED MALLET DESIGN - The new Studio Select Kombi mallet is available in Standard, Mid and Long models.

MILLED, 6061 AIRCRAFT ALUMINUM BODY - Precision milled, lightweight frame with Studio Select weighting technology.

SOLID FEEL - Thick face and three-point-weighting (steel weights heel, toe and back) provide unmatched solid feel and sound in a mallet putter.

BALANCE AND STABILITY - Three-point-weighting and a deep CG produce a balanced putter that is stable throughout the stroke for forgiveness and great roll.

STUDIO SELECT WEIGHTING TECHNOLOGY - Standard Kombi features circular steel heel and toe weights that provide multiple length and weighting options.

DOUBLE BEND SHAFT - A clean, double-bend stepless shaft with a full shaft of offset provides an unobstructed look at address.

HIGH CONTRAST SIGHT LINES - T-shaped, red ink sight lines provide precise alignment references on the topline and body.

CLEAN TOPLINE - Misted topline with a sight line along the rear edge reduces visual thickness and makes face alignment easy.

FLOWING SHAPE - Player-preferred shape and body size that flows into the ground from topline to rear.

BOLD RED TOUR COSMETICS - Tour inspired, three red dot graphics and red Cameron cord grip.

FACTORY CUSTOM WEIGHTS

Circular heel-toe weights on the Standard Kombi can be factory customized to make the head feel heavier to suit player preference.

*Non-interchangeable

PERFECT BALANCE

On the Kombi Mid and Long, the rear circular weight is replaced with a steel bar to create the optimum head weight and balance.

MODERN HEADCOVER DESIGN

Each Studio Select Kombi putter comes with a silver headcover with bold, red tour-inspired graphics.
